CIVIL DEFENSE

By G. C. POWELL, Assistant Director

A sincere word of commendation is herein extended to Walter West of the Torrance Fire Department for his donation of personal time and effort to the benefit of the residents of Torrance. The Fire Department, through Engineer West, has presented the American Red Cross First Aid training course to 116 people.

Mrs. John Beeman is now conducting a class for instructors in Home Nursing. When this class is completed, it is hoped that equipment will be available to conduct classes in all the area of Torrance. Any person wishing to avail himself of this course, please register with the Office of Civil Defense or with the Adult Education program.

The Auxiliary Police training program is progressing satisfactorily. Wednesday evening Sergeant Willard Haslam, of the Torrance Police Department, spoke to the men on rules and procedures of the department. City Attorney James Hall spoke on the Penal Code.

Letters To The Editor

EDITOR—TORRANCE HERALD

As you know, enrollment at El Camino College this year reached a record high just when we were expecting a serious drop. Our loss of younger daytime students to the armed services was more than balanced by the surprisingly large enrollment of adults eager to learn new technical and business skills.

We take pride in our enrollment (final figure 3525) because we feel it indicates our success in adjusting the college program to meet the needs of our citizen in a time of crisis. We are fully appreciative of the role your newspaper played in publicizing our program. It was only through the generous support by the newspapers of our community that we were able to reach the thousands of new students now taking advantage of our facilities. Your cooperation has been a service both to El Camino College and to its students.

Very sincerely yours,
(s) FORREST G. MURDOCK
President

Hi-Lites Of Seaside Heights

By GRACE RYCKMAN AND MERLE HOLSTIN
Frontier 5-8718

We could fill the entire column this week with a list of our neighbors who have colds and flu. But that is depressing for both the well and the sick. So let us just wish all of you, with the "bug," a fast recovery.

Have you noticed the nice new white lines down the middle of our streets? They are the result of a letter sent to our City Council by the Seaside Heights Home Owners Association. So we can see again the influence of said association.

Incidentally, tonight is our regular meeting at the El Retiro Park building at 8 p.m. We do hope you all received your notice and plan to come. Refreshments will be served.

As for the sewers, there will be some news on them, at the meeting. That is, the approximate time of when we will see the digging start—glory be.

Johnson's, 23077 Doris way, Rancho.

Mrs. Leonard Lane of Bindewald tells us that her brother, Corporal Walter Nicolson, is on his way back to the States from Korea. He has been wounded—we hope not seriously.

We have had so many neighbors ask about the "Beautify Our Tract" meeting that was rained out two Mondays ago. So let's try again to meet and work. Can you attend Monday, March 19th at 10 a.m., where Doris Way meets Macaffer Road? If it rains—make it Tuesday the 20th.

It seems Curly Herbst really did go skiing. Because he is now sporting a huge bandage on his broken left hand. He somehow tried to drive his ski pole through the palm of his hand. Must have been awfully painful.

Miss Donna Hatfield of Vandell Road, winner of the Girls' Intramural Tennis Trophy of 1950 at Torrance High School wants so much to enter the Dudley Cup Tennis Tournament. She needs a sponsor, and we think at this time we have found one for her. If so, she will play the 21st through the 24th at Santa Monica. The best of luck, Donna—bring that trophy back to the Hill!

The Ryckman family went to San Juan Capistrano Mission, Feb. 25th. If you have never gone, it is only 52 miles to a very interesting historic spot. The pigeons are a real treat for the children.

And so—so much for now, we hope to see you tonight.

The J. F. Dwyed family of Bindewald road recently spent a day at the "Crash" Corrigan ranch in Topanga Canyon. "Crash" was there in person. They had a grand time from all reports.

Mrs. Joe (Dorothy) Irwin is still in the process of recovering from her tonsillectomy last week. Have the swallows come back to Irwin yet, Dot?

Two of our young ladies had their birthdays last week, on the same day, March 9th, Miss Arlene Weber and Miss Carol Robison, both attaining the age of 11 years, or should we tell?

There are 21 Boy Scouts in the Heights and Ranchos who made memories for themselves last week-end. Leaving the school, Saturday, at 9:45 a.m., they hiked to a campsite in Rolling Hills overlooking San Pedro Bay. They pitched tents, cooked, sang around the Council Fire, studied the stars, stood watch, slept, and reluctantly started home at 1:30 p.m. Sunday. They were accompanied by Floyd Holstin, Scoutmaster, Paul Murray, and Frank Parent. Paul and Floyd hiked back with nine of them who are working for their First Class Scout badge.

Residents of the Seaside Ranchos area were informed that traffic conditions at Highway 101 and Roberts road did not indicate the need for traffic control devices other than 45-mile-per-hour signs near the intersection.

Those of you who did not vote in the last primary and general election, it will be necessary for you to re-register. This you can do either at Mrs. Slater's, 5005 Macaffer road, Heights; or Mrs.
